

# Time To Get Wise

## About Your Skin

Your skincare products probably contain one or more of the 'Dirty Dozen' chemicals that may be causing skin disorders, outbreaks and even contributing to elevated cancer rates. They are definitely making you look older!

- Sodium Laureth Sulfate
- Parabens
- Propylene Glycol
- Phthalates
- Petrolatum
- Cocamide DEA/Lauramide DEA
- Diazolidinyl Urea
- Butyl Acetate
- Butylated Hydroxytoluene
- Ethyl Acetate
- Toluene
- Triethanolamine

We believe that over 50% of all skin disorders are misdiagnosed and caused by chemicals in everyday skincare and household products. Isn't it time to get wise?
