## Solar Rx

### Moisturizing Sun Protection

What's hot from Ibiza to LA is clear, clean and glowing skin. The flat synthetic dry look is out. Radiant skin looks fresh, glows and lets the true person shine through. It is an honest natural look that men and women alike aspire to attain. Even better, we accomplished "the look" with whole natural ingredients that outperform conventional products.

Protecting your skin from UV damage and providing that radiant look is what Solar Rx does better than any other product. We combine the Hollywood inspired iridescent illusionary properties of our Luminos moisturizer with fine transparent zinc oxide to protect the skin from aging by the sun.

Fact, 90% of all visible skin aging comes from UV damage from the sun. Solar Rx is a moisturizer with broad spectrum UVA and UVB sun protection. Ranked as the most effective cosmetic sunblock by Consumer Reports Magazine and #1 safest by the Environmental Working Group's Sunscreen Report for three years running, Solar Rx provides a clear glowing foundation for day time protection.

Keys designs and manufactures all-natural, chemical-free skin care and natural skin therapies for people of all ages. Keys products are clean, green, vegan and gluten-free.
